Our Objectives

Navigating a complex and evolving world with a new paradigm for social responsibility

Creating links between leaders and those who are excluded from society

Raising awareness about complex problems and our responsibility to others

Developing and releasing new policies and practical actions for a more humane world

WITH WHOM? FOR WHOM?

The most vulnerable people (by poverty, age, disease, disability, isolation...).

Those who can act to improve solidarity and the involvement of all in society (students, companies, associations, politicians...).

Our Method

Serve

Helping everyone appreciate the uniqueness and giftedness of others

Periods of immersion and service with our partner associations to meet vulnerable people.

Inspire

Learning how to listen and gaining creative energy

Times for sharing and meditation through music, works of art and writings from great traditions and literature: our « Sparks ».

Research

Creating new ideas and practical actions for implementation

Times of reflexion and lectures to analyse and understand the issues of a complex matter.

UP for Humanness is a response to strong demand from the whole of society: it enables people to get connected and meet one another by using our inherent vulnerability and our search for a higher meaning as resources.

Philippe Pozzo di Borgo

Businessman, writer and patron of UP for Humanness

*To begin with oneself but not to end with oneself.
To start from oneself but not to aim at oneself. To
comprehend oneself but not to be preoccupied with
oneself. It is not for you but for the world that it's
necessary to worry.*
